Preface

Within the boundaries of McDonough County, Illinois are more than a hundred cemeteries and gravesites ranging in size from a single burial site to the expansive Oakwood Cemetery at Macomb. Within these cemeteries are the remains of an estimated 40,000 individuals who have died since the first settler arrived here over 150 years ago. Graves of countless others are scattered over the countryside of McDonough County; but, exact sites of many of these resting places are no longer known for various reasons. During the early days of this county, there were obviously no central burial grounds; thus, a pioneer family having the misfortune of losing one of its members placed the deceased in a grave on a family homestead and erected a makeshift marker. A number of these family burial grounds later became public cemeteries, however, many of the grave sites soon became "lost". Crude wooden markers or a hand engraved stone soon succumbed to the elements and were never replaced; scores of families moved further west after staying in this area only a short time and the gravesites of their loved ones shortly became insignificant mounds of earth; a number of families passing through this vicinity suffered individual losses. A prime example of the latter is contained in a history of Bethel Township. In 1830, four children of an emigrant family died while enroute through McDonough County. They were buried near their places of death which occurred about two miles southwest of Fandon. All traces of those graves have long been gone. During the summer of 1834, a widow lady died at her home in northern Tennessee Township. Her coffin of dressed walnut lumber was built by a local cabinet maker and she was buried in the timber near her home. Within a few years, no evidence remained to indicate the presence of her final resting place. A family who created an excellent farm from the prairies a few miles north of Macomb, maintained a fenced family burial site for several years. This cemetery contained the graves of about 12 former family members. During the early 1900's, the farm changed ownership. Shortly thereafter, the new owner removed all the stones, took down the fence, and this graveyard became part of a cornfield. These are only three of the countless incidents involving the total disappearance of burial sites. At this time, it is impossible to determine the locations of hundreds of individual's graves in this county.

Vandalism is responsible for the destruction of many grave stones. Countless markers have been partially or totally destroyed. Inscriptions have been obliterated by shotgun blasts, stones have been broken into dozens of pieces, and some markers have been entirely removed from their original locations.

While weather-wear and vandalism accounts for most of the destruction of individual tombstones, neglect is directly responsible for the eventual deterioration of graveyards. Several local cemeteries have had no protective fencing for a number of years and the grounds have become grazing land for livestock. Groundhogs and other burrowing animals have undermined large portions of various cemeteries. Some areas are nearly invisible because of massive growths of weeds and brush. Stones have fallen, broken, and become completely covered with soil and debris.

The overall conditions of our county cemeteries is a pathetic case. While some grounds are well maintained, or at least partially kept-up by various families, many have been totally forgotten. This situation is appalling and should never have come about. Apparently, lack of time, expense, and most of all regard has brought about the present-day poor conditions of many of our rural cemeteries.

Genealogical notes accompanying the various cemetery listings were prepared from a wide variety of sources including: Local area history books and atlases; newspaper files; county, state, and federal archives; family histories. These notes were collected at random from readily available sources and little, or no attempts were made to search for material for more complete genealogies. These notes are presented only for the purposes of identification and/or clarification.

Every attempt has been made to present complete and accurate information. Readers will find errors and omissions. Others will not agree with portions of my findings; however, no information contained herein is based solely on assumption or guesswork. It must be remembered that this information has been prepared for use only as a tool for further research and that nothing must be taken as final and absolute.

The larger cemeteries contained in these volumes are accompanied by grave location charts. These charts in no way are intended to represent any professionally prepared plat or survey that may exist. Their preparation and presentation are solely for general location purposes.

When copying inscriptions from grave markers, it is sometimes impossible to read some portions of the engraving. Names, dates, ages, etc. that were found to be unclear or totally missing are indicated by the use of question marks or dashes, i.e., SPICER, James T., infant son of ?J.B. & S.J.?; d. -----; age -----. The letters or numbers enclosed in parenthesis following the inscription, indicate general location as indicated on the accompanying chart.

Abbreviations used are as follows:

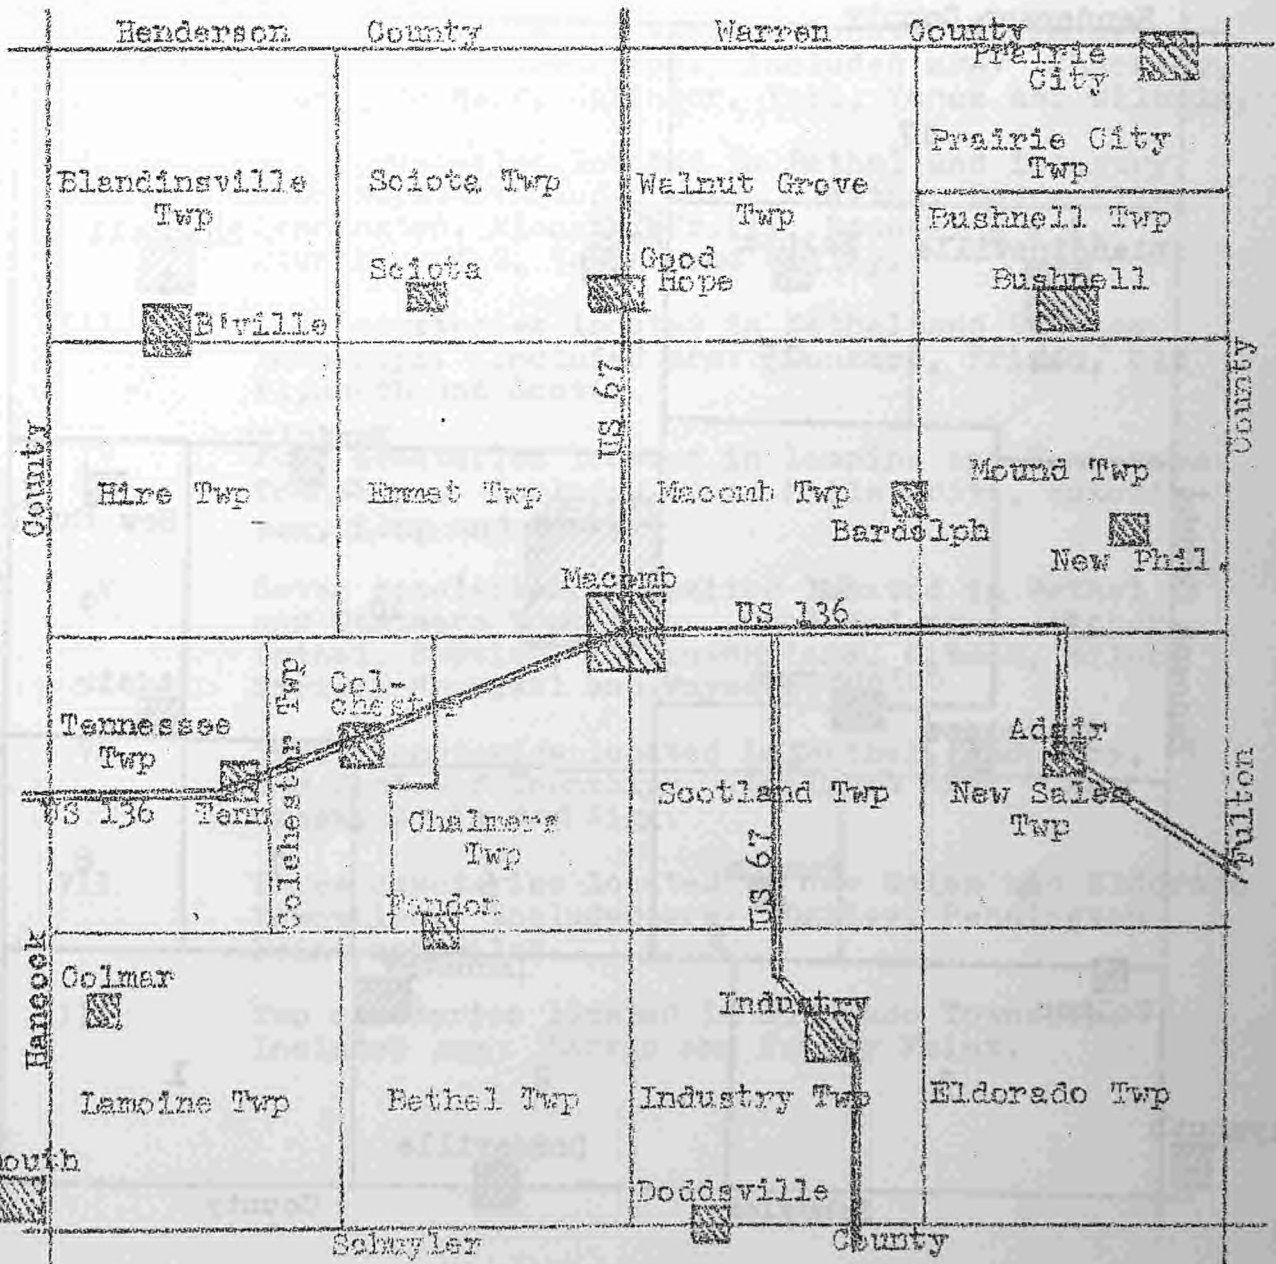

b.	born	m.	months
Cav.	Cavalry	md.	married
Co.	County/Company	sec.	section
d.	died/days	twp.	township
dau.	daughter	y.	years
Inf.	Infantry		

Time and space prohibits proper recognition for all those individuals who gave assistance in preparing and publishing these volumes. Deep and sincere appreciation is extended to all concerned, especially to the following: My parents, Mr. and Mrs. Lloyd Lester, and my wife, Rose; and to Mrs. Lavina Walton and other members of the Schuyler County Historical and Genealogical Society for printing and binding the finished product. Thank you.

Genealogical Notes

BANKS: Vandever Banks was among the early settlers of Hire township, locating there in 1836. He entered the south-west quarter of section 30, and immediately erected a house thereon, and soon afterward purchased other land. He was successful in all his undertakings, and at the time of his death had acquired considerable property.

Vandever Bank/Banks was born in Adair county, Ky., April 16, 1804; son of Vandever and Elizabeth (Walford) Bank/Banks, the former a native of Maryland, the latter was a Virginian by birth. He was married to Loraner A. Sharpe August 31, 1826. During his early life he worked at the carpenter trade.

Eleven children have been born to Landever & Loraner A., five of whom were living in 1885—Elizabeth W., wife of Thomas Massie, of Hancock county; Sarah M., wife of John M. Lyon, deceased, now residing on section 30, Hire township; James C., Millard T. and

BANKS (Continued)

Job V., all residents of Hire. The death of Vandever Banks occurred June 26, 1876, after an illness of some six months duration, and was caused by a cancerous affliction of the stomach.
